PRIYANKA R

pr989859@gmail.com | | Mysore, Karnataka | Experience: Fresher

SUMMARY

MCA candidate with skills in software development and cybersecurity. Seeking an entry-level IT or Software Development role.

TECHNICAL SKILLS

Programming: Python
Web Technologies: HTML, CSS, JavaScript
Framework: Django
Database: PostgreSQL
Version Control: GitHub
Operating Systems: Windows

INTERNSHIP

Cybersecurity Intern
Excerpt Technologies Pvt. Ltd. | Whitefield, Bengaluru
Feb 2026 – May 2026

- Assisted in web application security testing and vulnerability assessment in controlled environments.
- Worked with web technologies and security testing tools during application security exercises.

PROJECTS

Engineering Operations & Incident Management Platform
Technologies: Python | Django | PostgreSQL | REST API | Github

- Developed a role-based Incident and Service Management platform to manage tickets, incidents, service issues, change requests, releases and deployments, with SLA tracking, incident escalation and change approval workflows.
- Built REST APIs using Django REST Framework and designed PostgreSQL database models with RBAC, audit logging, cross-department incident tracking, search, filtering, pagination and validation.

IoT Multi-Gas Monitoring System (Patent Published)
Technologies: ESP32 | Arduino IDE | C | MQ135 | DHT11 | Blynk IoT

- Developed an IoT-based robotic environmental monitoring system using ESP32, MQ135 and DHT11 sensors for real-time temperature, humidity and gas detection.
- Blynk Cloud used for live data visualization and robot navigation.

EDUCATION

MCA | ATME College of Engineering | 2026
CGPA: 9.1

B.Sc. (Electronics & Computer Science) | NIE FGC | 2024
CGPA: 8.05
